

The **Investor Education Day (IED)** will help you learn to trade options – a good alternative when you don't know what way the markets are going. Sponsored by **The Options Industry Council (OIC)**, the IED is a full day of free options education. And this year, OIC is offering two distinct tracks so you can tailor your day of options education based on your investment experience.

#### **Track 1 – Options Basics:**

Choose this if you have limited options knowledge. You'll learn fundamentals, strategies to get started and risks/rewards of trading options.

#### **Track 2 – Advanced Strategies:**

Choose this if you want to extend your options knowledge. You'll gain insight on advanced concepts such as butterflies, condors and more.

Sessions start at 9 a.m. and end at 4 p.m.

Seats are limited, so register today at [OptionsEducation.org](http://OptionsEducation.org) or call OIC at 1-888-OPTIONS.

Options involve risk and are not suitable for all investors. Individuals should not enter into Options transactions until they have read and understood the risk disclosure document, Characteristics and Risks of Standardized Options, available by calling 1-888-OPTIONS or by visiting [OptionsEducation.org](http://OptionsEducation.org). © 2012 The Options Industry Council.
